

GDV Bioelectrography Beograms

“The GDV beograms before and after treatment with the Energy Enhancement System™ show quick, dramatic shifts and significant, positive changes in the bio-energetic field. Clients are experiencing calmness, deep relaxation, healing and a greater sense of awareness about themselves.”

—Dr. Sabina DeVita, GDV researcher, author of *Electromagnetic Pollution*

As a cutting edge diagnostic medical device used in hospitals and universities around the World, the GDV Beogram has been verified to have an accuracy rate of the 98% level of confidence for evaluating human energy fields. As such, when utilized in conjunction with our EES, it shows profound, scientifically quantifiable results confirming the efficacy of our technology.

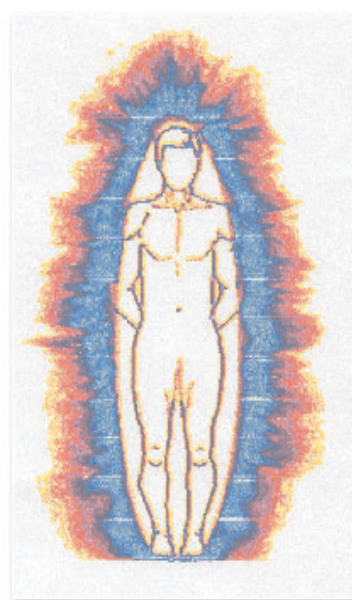

Before

After

Left: Notice the front view; uneven and opened areas near the face, neck, breasts. Blood circulation is problematic.

Right: Notice the changes in the field after time in the Energy System. The field is more symmetrical and together. The Life Force has more fluidity.
